Isidery G's 401... WWTP 401 cert... Conf Call on LNFH

Hi Everyone! We're looking forward to our call on Wednesday morning. I took a stab at a meeting agenda based on a few topics in the Draft LNFH Permit that I think we'll want to discuss as a group. Mark mentioned these in the meeting invite he sent out, below. I'm also attaching a few of the more recent 401 Certs that our office has received from Ecology on some of the other NPDES Permits we've issued, so you have an idea of what we're used to seeing when you're figuring out who might be the best point of contact from the CRO. Thanks! Talk with you soon.

I wasn't sure if there was an Ecology line for this call or not, so I reserved an EPA Meet Me Line. **If we want to use it, please call** (b)(6) If you want me to cancel it, please just let me know.
Thanks so much!
